EDUCATION

Newton School of Technology (ADYPU) *Aug 2024 – May 2028*
B.Tech in Computer Science, AIML Specialization **CGPA: 8.82 / 10.0**

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, Go, C++, SQL, HTML, CSS
- **Web & Mobile:** React.js, React Native, Node.js, Express.js, Next.js, Tailwind CSS, TanStack Table, Expo, NativeWind
- **Databases & Tools:** MongoDB, PostgreSQL, Redis, Firebase Firestore, Prisma ORM, GORM, Git, REST APIs, Postman, AWS (S3), Jest, Supabase, Figma, GitHub Actions
- **Data & AI:** NumPy, Pandas, Power BI, OpenAI API, Gemini API, FastAPI, FAISS, Sentence-Transformers

EXPERIENCE

Full Stack Developer Intern *Jun 2026 – Present*
ZewaFeeds — D2C E-commerce Startup zewafeeds.com

- Built ZewaFeeds' entire **D2C e-commerce platform** solo, a **Next.js** storefront, admin **CRM** and **Express/TypeScript** API (**220+ endpoints**) on **PostgreSQL**, live in **5 months** with **160+ customers**
- Engineered a **Razorpay** checkout with server-side price validation and HMAC-verified webhooks, a coupon engine with **4 stacking modes**, influencer tracking and a ledger-based **loyalty programme**
- Built a **no-code CMS** so non-technical staff update products, site content, images and blogs without touching code
- Migrated **60+ orders** and a **44-SKU** catalogue off the old platform; fixed **7–20s** page loads by co-locating API and DB

Full Stack Developer Intern *Mar 2026 – Sep 2026*
Ionage — EV Charging Platform

- Built end-to-end features across a **React/TypeScript** dashboard and **Node.js** and **Go** services, including a **7-role RBAC** system, configurable operator invoicing, and station revenue reports with CSV export on **PostgreSQL**
- Traced a production caching bug across UI, API, **AWS S3** and cache layers to **3 root causes**, fixing all with **Jest** tests
- Designed **UPI, WhatsApp and web** pay-to-charge flows for an API-charging POC with product and engineering

Mobile Application Developer Intern *Oct 2025 – Dec 2025*
Instilit — Remote

- Engineered **React Native** sports apps adopted by **500+ athletes**, integrating **Firebase** (Auth, Firestore) for real-time sync, achieving **sub-200ms** response times and **zero critical bugs** in production
- Delivered **4 features** ahead of sprint deadlines including a **video annotation** module that cut coach review time by **40%**, built with a responsive **NativeWind** UI across a cross-functional team

Full Stack Developer Intern *Jun 2025 – Aug 2025*
PopularDigital.AI — Bangalore, India

- Shipped production features serving **10,000+ active users**, integrating **FastAPI** pipelines that slashed processing time from **24 hours to 30 minutes** and reduced manual effort by **65%**
- Collaborated across design, engineering and product to deliver **3 major features 3 weeks ahead of schedule**

PROJECTS

Knowra | *FastAPI, FAISS, Groq (Llama-3), Sentence-Transformers, React.js, Tailwind CSS* GitHub | Demo

- Built a production-ready **RAG system** ingesting **GitHub repositories** and **PDFs** (with deep annotation & URI extraction) into a **FAISS** vector store, delivering source-cited answers via **Groq (Llama-3)**
- Implemented semantic chunking with **Sentence-Transformers** embeddings for **sub-second similarity search**, behind a modular **REST API** with separate ingestion, embedding and retrieval services

QuestLog | *React Native, Expo, Node.js, PostgreSQL, Prisma ORM* GitHub | Demo

- Launched a **gamified task management** app with XP-based leveling (5–20 XP/task), streaks, and leaderboard rankings, achieving **30% faster** session load time via optimized React Navigation and Context API
- Architected **Node.js** and **PostgreSQL** REST APIs via Prisma ORM with **JWT authentication**, supporting **concurrent multi-user** sessions with consistent sub-100ms query response

ACHIEVEMENTS & CERTIFICATIONS

- **Google Big Code Challenge** *(2025):* Qualified for Round 2, placing in the **top 1,500 students** nationally
- **Project Morpheus – Runner-Up** *(Feb 2026):* **2nd of 500+ teams** at a national 24-hour hackathon
- **Smart India Hackathon 2024:** Cleared college selection and advanced to the national stage among **500+ teams**
- **Open Source:** Contributed to Hacktoberfest 2024 & 2025, merging multiple pull requests across open-source repositories
- **Certification:** AI for Everyone – DeepLearning.AI via Coursera, December 2024
- **Leadership:** College Volleyball Team; Go For Gold volunteer, managing engagement for **200+ attendees**
